Longest Drive (Male and Female) and Closest to Flag (Male and Female)

Dear Friend of South Football:

It is time once again for the South Football Best Ball Golf Scramble! We hope you will consider joining us for this event by registering a team or by becoming a tournament sponsor in one of the many ways listed on the attached registration form.

The South Football Booster Foundation is working hard toward our ultimate goal of installing turf at South so the players can have safe practices and host their own "home" football games. As you can imagine, turf is a very expensive, long-term goal, but it is one we are committed to making happen. In the short term, high school sports programs receive exactly zero funding dollars from the Anchorage School District, so it is up to us to take care of the safety of our players and all the other team needs each season. These maintenance costs alone run between \$30,000 and \$50,000 annually, and that is strictly for basic team needs such as practice uniforms, helmet reconditioning, safety gear, training equipment, jersey replacement, etc., for our C, JV and Varsity teams.

Thank you in advance for reviewing and considering the attached information. Please feel free to call if you have questions, or if you care to see a list of business sponsors and golf scramble participants from prior tournaments. We welcome your support and appreciate your generosity in helping South Anchorage High School athletes reach their greatest potential for success!

Regards,

South Football 2008
